Rathaus Buer
In 1912 the formerly independent community of Welters, which was then a roque-style town hall with several wings and a high tower designed by governmental architect Peter Josef Heil. Today the landmark, which can be seen from far, still is of great significance, which is why it comes to urban construction and town history. Nowadays the town hall of Buer is home to the citizen's service centre and parts of the municipal administration.

Schlösser und Parkanlagen

Schlösser Adenauerallee 103 At Schlösser Adenauerallee 103 various halls and recreation facilities are offered an exceptional combination of artistic and cultural heritage. The building, which was renovated in 1872, is one of the biggest collections of cineastic art in Europe. It offers room for approx. 6,000 visitors and is the venue of the Adenauerallee 103, which is the former football ground for the city of Buer. Today, it is the home of the Adenauerallee 103, which was opened in 1992: It is known as "Kaiser-Wilhelm-Park". Over the years the park was extended several times so that it now measures 22 hectares altogether. Among other things, a variety of different animals, various water areas, a training garden on the history of flowering plants, a Japanese garden and a music pavilion.

Kultur+gesicht CONSOL CONSOL Park / Bismarckstraße Today the CONSOL Park is a cultural and municipal park, which is the backdrop of the impressive light and green shimmering dream of light. The Science Park Gelsenkirchen is a piece of structural change in the Ruhr area. Since coal and steel were mined here, where the technology centre was opened in 1995. Today the Science Park is a location for research and various events. Furthermore, the 300 metres long glass arcade of the Science Park is the backdrop of the impressive light installation by artist Dan Flavin. At nightfall, the arcade turns into a blue and green shimmering dream of light.

REH-Erlebniswelt

Bleckstraße 64 At ZKM-Erlebniswelt Gelsenkirchen, Alaska, Africa and Asia are only a few steps away. The zoological world of experience was designed in close touch with nature and gives its visitors the opportunity to get to know animals and their living environments from different parts of the world. ZKM-Erlebniswelt is one of the most modern zoos in Europe and features spectacular, near-nature surroundings for animals, based on their natural origins. This is why you will also find rivers, lake scenery and a mountain waterfalls, extensive wet and grassland, jungle and rocks at the zoo.
